¹⁾ All Prices include VAT and are subject to changes and errors

²⁾ Additional time-based fees may apply and depend on the duration of the connection to the charging station. Time-based fees are incurred after exceeding the specified minutes at the specified fee.

³⁾ Prices vary on a charge point operator and connector basis and are subject to change. They can include fixed fees (e.g. a session fee), kWh and time-based fees. The current applicable pricing conditions can be viewed in the charge point details of a selected charging station in the app before starting a charging session. Users should inform themselves in the app about current prices directly prior to initiating a charging session.

⁴⁾ In rare cases authentication not initiated via the app might be possible at charging stations, where no price preview can be shown in the mobile app. In these cases, the following prices will apply depending on the geographical location of the charging station:
